planets

Formed with the arrival of the 21<sup>st</sup> century, **Solution Planets** is offering the host of "big solutions for the small planet". With over 20 years of collective experience working closely with local, national and international clients, structured as a team of digital nomads, SP is your technology, innovation and creative department on wheels.

# SOLUTION PLANETS

Our process is simple

We identify, plan, design, implement and nurture experiences, products and services to help our clients build meaningful connections with their audiences. The best part is that it all happens under one roof to produce end to end solution to our clients.

## Our Mantra

To achieve client satisfaction by bringing innovative technology. We believe in IT Partnership with our clients rather than just being a vendor.

# Our Process Chain

We identify, plan, design, implement and nurture experiences, products and services to help our clients build meaningful connections with their audiences. The best part is that it all happens under one roof to produce end to end solution to our clients.

## Identify

Navigate toward a thorough understanding of your company, project, audience, and objectives.

## Plan

Construct a framework for your project to take shape within in terms of strategy, production and time.

## Design

Translate planning into purposeful designs that reflect your objectives and outline the aesthetic.

## Implement

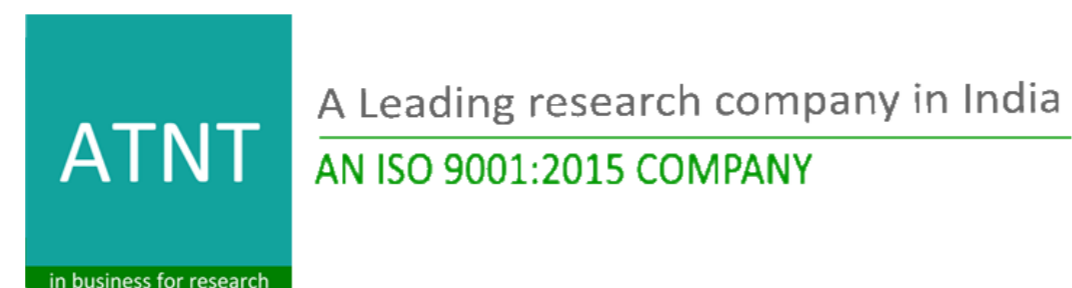

Review and prepare final product. Polish, test, finalize and deploy. Celebrate with a pizza party.

## Nurture

Monitor the project's growth as it comes to life. Evaluate, prune and water for next phase to sprout.
